2025 Silverwood HOA Board Meeting Meeting
Hardesty Library
6/30/25

1. Call to Order: The meeting was opened by Member at Large Laura Crismon at 6:33 PM. Attendees included President Stephanie O'Connell, Vice President Gary Yeagar, Secretary Bob Thornton and members at large Van Peters, and Laura Crismon. Tim Sanderson and Robert Rodriguez were not able to attend.

2. Stephanie O'Connell reviewed items accomplished or being accomplished to date, which will be included in the summer newsletter. These items include the new pool landscaping, painting of pool bathrooms and repair of men's bathroom, repair of siding, new lounge chairs, 6 new umbrellas and repair of security cameras. Much of this work was done cost by the current board without cost or at minimal cost to the HOA.

3. The board discussed the latest communications with the City of Bixby in regard to ongoing work on 111th and it's impact on the neighborhood. While the city would like to address everything at the end of the project which is targeted for the end of September, the board agreed to form a committee to represent the neighborhood and maintain continual communication with the city and contractor to ensure our best interests.

DRAFT

4. President Stephanie O'Connell introduced the idea of forming committees to accomplish some improvements in the neighborhood. These committees would be led by various board members on a volunteer basis and would target specific areas, such as daily pool maintenance like checking umbrellas and furniture daily, making sure garbage is put out for collection, checking for repairs such as staining of the east fence and more. Another committee would work with beautification and landscaping including maintaining flower beds in between contractor visits and helping update bed designs. The goal of these and other committees would be to have residents do some minor tasks and projects that would save the HOA money and hopefully avoid increases or special assessments which would be required to outsource the work. These volunteer opportunities will be communicated to residents through upcoming newsletters, social media posts and signage at the pool house.

5. The meeting was adjourned by Laura Crismon at 8:04pm
